

## BSO TEACHING BIKE SAFETY SKILLS AT AN EARLY AGE

Weston BSO Crime Prevention Practitioner Deputy Kari Pallotto and volunteers from the Weston COP program (Citizens on Patrol), provided a Bike Rodeo at Temple Dor Dorim on January 31<sup>st</sup> for three and four year olds.

Starting youngsters off early on the importance of bike safety they first provided bike helmet checks. After all helmets were insured to fit correctly children were taught the meaning of certain traffic signs and what to do when they see those signs which included stop, yield, pedestrian crossing, railroad crossing and one way.

A fun course was set up for the children to practice their bike riding skills while "observing traffic signs".
