**Subject: Exemption for Weston Drainage Ditch No. 3 & 5 Restoration
Application No. 250325-51515
Exemption No. 06-113316-P
Broward County**

Dear Mr Chitepu:

The South Florida Water Management District (District) reviewed the information submitted for the proposed maintenance dredging and has determined that the proposed project is exempt from the requirement to obtain an Environmental Resource Permit, pursuant to Subsection 62-330.051(7) (b) Florida Administrative Code (FAC) and Subsection 403.813(1)(g) Florida Statutes (FS).

The project proposes the maintenance dredging of approximately 3,900 feet of Ditch No. 3 and 13,730 feet of Ditch No. 5 to re-establish their permitted design profile and design drainage capacity. Proposed activities include excavation, sediment removal, and clearing of vegetation on side slopes, access pathways, and within the ditches to facilitate sediment removal. Refer to Exhibit No. 2.0 for construction plans. Excavated sediment will be stockpiled to dry and used for site restoration within the project limits. Material that cannot be reused within the project limits, dried aquatic vegetation and sediment stockpiles are to be hauled offsite for disposal. A sediment & erosion control plan will be implemented to prevent transport of sediment. Site restoration includes grading and seeding of all disturbed areas. All work is located within the Indian Trace Development District in Weston, Broward County. Refer to Exhibit No. 1.0 for a location map.

Activities that qualify for this exemption must be conducted and operated using appropriate best management practices and in a manner which does not cause or contribute to a water quality violation. Pursuant to Chapters 62-302 or 62-4, FAC.

This letter does not relieve you from the responsibility of obtaining other permits (federal, state or local) which may be required for the project.

The determination that this project qualifies as an exempt activity may be revoked if the installation is substantially modified, if the basis of the exemption is determined to be materially incorrect, or if the installation results in violation to state water quality standards. Any changes made in the construction plans or location of the project may necessitate a permit from the District. Therefore you are advised to contact the District before beginning any work in wetlands which is not specifically described in the submittal.

The notice of determination that the project qualifies as an exempt activity constitutes final agency action by the District unless a petition for administrative hearing is filed. Upon timely filing of a petition, this Notice will not be effective until further Order of the District. If you have any questions concerning this matter, please contact Alexander Brockett, Environmental Analyst 4 at (561) 682-2754 or abrocket@sfwmd.gov, and Mark Vicciardo, Engineering Specialist 2 at (561)

682-2043 or mvicciar@sfwmd.gov.

Requests for extension of time must be filed with the District prior to the deadline for filing a petition for hearing. Such requests for extension shall contain a certificate that the moving party has consulted with all other parties concerning the extension and whether the District and any other parties agree to or oppose the extension. A timely request for an extension of time shall toll the running of the time period for filing a petition until the request is acted upon.
